Dancing Explained's original text was unclear and did not include detailed steps descriptions. You may find point maps, or tracings accompanying a written description. But these would be insufficient information to recreate the dance. So, numbers were added to the steps. The notational evolution of dances began with the publication of Louis-Guillaume Pecour's Ballets in 1704. These works were a great help to Weaver as he prepared his Dancing Treatise.

Different definitions can be given to dance, but each has its unique qualities. There are many kinds of dance including cheerleading, martial art, cheerleading, synchronized swimming and marching bands. No matter if you're interested in classical or modern dancing, there are styles for everyone. You can learn a lot about your body by dancing if you're interested.
